Q1 SST (C) #21 Role of Education

概述口语 Summarize Spoken Text · 评分 7 / 10

录音原文 Transcript

Education stands as a powerful tool in bridging social inequalities, serving as a catalyst for change in a world riddled with disparities. Its role in shaping a more equitable society is paramount, as it offers the key to unlocking potential and leveling the playing field. However, the journey towards educational equity is fraught with challenges. In many parts of the world, access to quality education is unevenly distributed, often influenced by factors such as socioeconomic status, race, and gender. This disparity perpetuates a cycle of inequality, where underprivileged groups remain marginalized. The digital divide, exacerbated by the recent global pandemic, has further highlighted these disparities. Students in remote or impoverished areas, lacking access to technology and the internet, find themselves at a significant disadvantage. However, there is hope. Initiatives aimed at providing equitable access to education, such as scholarship programs, community schools, and digital learning platforms, have shown promise. They not only offer access to knowledge but also foster critical thinking and problem-solving skills, empowering individuals to rise above their circumstances.

译 教育是弥合社会不平等的有力工具，在一个充满差距的世界里充当变革的催化剂。它在塑造更公平社会中的作用至关重要，因为它提供了释放潜能、创造公平竞争环境的钥匙。然而，通往教育公平的道路充满挑战。在世界许多地方，优质教育的获取分布不均，常受社会经济地位、种族和性别等因素影响。这种差距使不平等的循环延续，弱势群体始终被边缘化。近期的全球疫情加剧了数字鸿沟，进一步凸显了这些差距：身处偏远或贫困地区、缺乏技术与网络的学生处于明显劣势。然而，希望仍在。旨在提供公平教育机会的举措——如奖学金项目、社区学校和数字学习平台——已显现成效；它们不仅提供获取知识的途径，还培养批判性思维和解决问题的能力，使个人能够超越自身处境。

Q2 MCM-L #20 Re-adjusting to Life**多选 Multiple Answers • 评分 1 / 2****录音原文 Transcript**

Re-adjusting to life in your own country after living abroad for some time is a little like recovering from jet-lag after a long flight across several time zones. It takes time. And research indicates that after nine years living in a foreign country you never really do re-adjust. Of course, things have changed: governments have come and gone, what you knew as countryside has become a suburb, new technologies have changed the way people go about their daily lives, and so on. These changes may well have been taking place in your adopted country, but they were happening while you were there, so you could adapt as you went along. Those are not the main difficulties, however. It is in the smaller, everyday things that you might experience what is known as culture shock, although it's not really a shock, but puzzling all the same. For example, the precise way to behave at a supermarket checkout may have changed. And in ordinary conversation, the frames of reference have changed, and quite often you find that you don't really know what people are talking about, even though they are speaking your native tongue.

译 在国外生活一段时间后回到自己国家重新适应, 有点像长途跨时区飞行后倒时差——需要时间。研究表明, 在国外生活九年后, 你其实永远无法真正重新适应。当然, 一切都变了: 政府换了一届又一届, 你记忆中的乡村变成了郊区, 新技术改变了人们的日常生活方式, 等等。这些变化在你侨居的国家或许也在发生, 但那是在你到场时发生的, 所以你能边走边适应。然而, 那些并不是主要困难。真正的困难在于更小的日常琐事——你可能经历所谓“文化冲击”, 虽算不上冲击, 却同样令人困惑。比如超市结账时的确切做法可能变了; 日常对话中参照框架也变了, 你常常发现自己根本不知道别人在说什么, 尽管他们说的是你的母语。

Dogs are not just man's best friend. Previous studies have shown that kids with dogs are less likely to develop asthma. Now a new study may show how — if results from mice apply to us. The work was presented at a meeting of the American Society for Microbiology. The study tests what's called the **X highjeans** (答案: hygiene) hypothesis. (你的作答：highjeans / im / rest ——三处均听错。)

Q6 MCS-L #47 Handball Violation

单选 Single Answer • 评分 1 / 1

| 录音原文 Transcript

Listen to part of a lecture and answer the question. Ok, now let's talk about handball violations. I bet you all know that you aren't supposed to use your hands when you play soccer. It is called a handball violation. You cannot touch any part of the ball with your hands unless you are the goalkeeper. Only the goalkeeper can touch the ball with his hands. A handball violation includes using any part of the body from the fingers to the shoulders. Until here. This is all you know, now I want to ask you some questions. First, picture the situation in the middle of a game. A player kicks the ball and the ball touches the hand of the opposite team player, but he didn't touch it intentionally. Now, is it a handball violation? I want you to think about it. Here goes another question. What if the kicker did that intentionally? Is it a handball violation?

译 不，那是——这是个重要方面——正如你前面提到的，我们之前的研究已证明：在某些情况下，即便血压不高的人，也能从降血压治疗中获益。在这项研究里，我们纳入患者的主要原因是糖尿病，并不在意他们血压是高是低。我们的目标是考察——把糖尿病患者本就平均或偏低的血压再降低是否有益；结果表明，无论血压高低，只要患有糖尿病，都能获益。

Q10 HIW #317 Classified Advertisements

找错词 Highlight Incorrect Words · 评分 1 / 6

Classified advertisements placed by individuals in **newsprint** (听:newspapers) and magazines are not covered by the Advertising Standards Authority's '**court** (听:code) of practice'. If you happen to buy goods that have been wrongly described in such an advertisement, and have lost money as a result, the only thing you can do is bring a case against the person who placed the advertisement for misrepresentation or for breach of **contrast** (听:contract). Dishonest traders are **wary** (听:aware) of this and often pose as private sellers to **expose** (听:exploit) the legal loopholes that exist: that is, they may claim they are not in a position to pay damages.

译 个人在报纸和杂志上刊登的分类广告，不受广告标准管理局《行为准则》的约束。如果你碰巧买到在此类广告中被错误描述的商品并因此蒙受损失，你唯一能做的就是以虚假陈述或违约为由起诉刊登广告的人。这种情况下你会

走小额索赔程序——一种相对便宜的追讨欠款诉讼方式。若要索赔，应考虑被告是否有能力支付应判的赔偿金。不诚实的商家对此心知肚明，常假扮成私人卖家来利用现有法律漏洞：即声称自己无力支付赔偿。

应点的 6 个错词：newsprint / court / contrast / rewarded / wary / expose （实际读音 newspapers / code / contract / awarded / aware / exploit）。你只点了 newsprint。

Q11 HIW #316 to Travel Abroad

找错词 Highlight Incorrect Words · 评分 3 / 6

录音原文 Transcript (屏幕错词已标出，括注实际读音)

In the 19th century, few people could afford to travel abroad; it was expensive and there weren't the massive (听:mass) transport systems that we have today. So curiosity about foreign lands had to be satisfied through books and drawings. With the advent of photography, a whole new version (听:dimension) of 'reality' became available. Publishers were not slow to realize that here was a large new market of people eager (听:hungry) for travel photography and they soon had photographers out shooting the best known European cities, as well as more exotic places further afield (听:away). People bought the pictures by the millions, and magic lantern shows were presented in schools and leisure (听:lecture) halls. Most popular of all, however, was the stereoscopic picture which pretended (听:presented) three-dimensional views and was considered a marvel of Victorian technology.

译 19 世纪很少有人负担得起出国旅行——费用昂贵，也没有我们今天这样庞大的交通系统。因此人们对异国的好奇只能靠书籍和绘画来满足。随着摄影术出现，一种全新维度的“现实”变得可得。出版商很快意识到，这里有一个庞大的新市场——人们渴望旅行摄影——于是很快派摄影师去拍摄最著名的欧洲城市以及更遥远的异域。人们成百万地购买这些照片，学校和讲堂也放映幻灯片表演。然而最受欢迎的是立体照片，它呈现三维视图，被视为维多利亚时代技术的奇迹。

应点的 6 个错词：massive / version / eager / afield / leisure / pretended （实际读音 mass / dimension / hungry / away / lecture / presented）。你点了 eager, afield, pretended (3 个全对)。
